Survey on the use of [OSM.org](#) ⛓

We are a study group from the University of Brasília (UnB) conducting a survey about OpenStreetMap ([OSM.org](#)). Our goal is to improve OpenStreetMap by better understanding its users' profiles. Through this survey, we aim to gather valuable information that will allow us to identify the needs, preferences, and challenges faced by users when using OSM.

The survey will take between 5 to 10 minutes to complete. Your responses will be confidential and anonymous. Please answer all questions sincerely.

For more information or if you have any questions, please contact us at gustavo.soares@aluno.unb.br.

We count on your collaboration to enhance this important collaborative mapping tool.
